AA40FB2P**4t 2-Post Floor Base Vehicle Hoist**

August 2026

The AA40FB2P 4t 2-Post Floor Base Vehicle Hoist has a conventional 'H Frame' floor base design suitable for many under vehicle service & repair operations. The fast lifting and lowering times makes the AA40FB2P for large or small workshops.

The large diameter lifting pads comfortably accommodate large and small vehicles with a maximum lifting height of 1,900mm & minimum lowered height of 100mm. Safety is assured with the electric safety lock operation and the dynamic safety load tested to 4,600kg - 115% and the static load tested to 6,000kg - 150%.

The AA40FB2P 4t 2-Post Floor Base Vehicle Hoist has standard economical 3 phase power with optional 240 volt power pack. An aluminium motor for improved cooling capacity during high work demands and low voltage controls offer greater operator safety. With quality components used throughout, the AA40FB2P is compliant with Australian standards and manufactured to stringent European CE Standards.

SPECIFICATIONS, FEATURES & BENEFITS

- Width between columns 2,760mm
- High lifting capacity of 4t
- Fast lifting time of 60 seconds
- Fast lowering time between 18 to 40 seconds
- Asymmetric lift arm design incorporating 2 & 3 stage arms with toe protection and automatic engaging safety arm locks
- Large diameter lifting pads comfortably accommodate large & small vehicles
- Maximum lifting height of 1,900mm
- Minimum lowered height of 110mm
- Electric safety lock operation
- Dynamic safety load tested to 4,600kg – 115%
- Static safety load tested to 6,000kg – 150%
- Standard economical 3 phase power with optional 240 volt power pack
- Aluminium motor for improved cooling capacity during high work demands
- Low voltage controls offer greater operator safety
- Australian Worksafe compliance:
Design Registration Number: WAH 20951
- Manufactured to stringent European CE Standards

Also available:**AA40FB2P-240V** with 240V operation
